

Eco Habitat @ Coorg

Made just for the adventure junkie who would like to be pampered with the Eco Habitat facility is one of the most luxurious holidays we have on offer. We offer outdoor activities like forest walks and river crossing, a meal at a local house in far off village, but without having to forgo any of the basic creature comforts that you are used to. And for those more inclined towards real adventure we also offer some spectacular long treks and breathtaking jeep safaris deep in Coorg & Western Ghats.

The unusual mix of beauty, comfort and adventure will definitely put life back into a tired soul as, Eco Habitat not only offers the adventurous stuff, but also offers some peace and quiet where one can just lounge around in the indoor pool or take a walk in the landscaped gardens. Let's not forget the amazing cuisine on offer, as we believe that a good holiday is never complete without good grub.
